CERTIFICATE

Cisco Network Academy:

- CCNA: Introduction to Network

MUX:

- Digital Awareness

ICT X-Learn

- GenAI: ເສຣິນທັກະບັກງົງຈັຍຢຸດດີທັກ

PROJECT

CD Key Website Project

- This is a project for "Web Technologies and Application" Class. We made the CD-Keys Website using React, Vite, JavaScript, Node.js, and MySQL to develop. My role in this project was backend part doing the Authentication using JSON Web Token, Steam API Players Count, Search, MySQL Databases, and also the frontend part by using API to connect with backend and databases.

AI chatbot

- A modern portfolio website built with Next.js, featuring an AI-powered chatbot using Google Gemini API. Includes dark mode, responsive design, and real-time streaming chat responses.

Link: https://github.com/WISHERCARTs/my_portfolio

AI Automation Bot (n8n)

- A serverless bot that monitors tech news 24/7, uses AI to summarize content, and automatically updates the database without human intervention.
